I. Hardware — Seismic / Kinetic / Ecclesiastical / Celestial Telemetry

Vector 1 — Middle East Kinetic — CENTCOM: STRIKE PHASE IRAN DIRECT CONFIRMED - At 10 p.m. ET July 29, U.S. Central Command forces successfully completed heavy wave of strikes against Iran in response to July 28 attempted ballistic missile surprise attack on U.S. forces per CENTCOM Public Release July 29. CENTCOM assets struck dozens of IRGC targets including military command centers, missile and drone facilities, coastal surveillance and defense sites, maritime capabilities. The strikes aimed to further diminish threats posed by Iran and its proxies to American forces, commercial shipping, and neighboring Gulf countries. On July 28, IRGC forces launched multiple ballistic missiles from Iran in attempted surprise attack - All Iranian missiles successfully intercepted. More than 50,000 U.S. service members currently deployed to Middle East remain highly vigilant, focused, lethal, and ready. Prior: July 28 U.S. + Saudi forces precision strikes against Iran-backed sites in eastern Iraq per CENTCOM. Blockade status transitioned from PAUSE to DIRECT ACTION to IRAN DIRECT.
